Hi Dan
I'm not sure they are. I've just shared with you their actual response.

Hi Ehud,

Hag Sameah!!

Following our conversation last Thursday, I wanted to update you that the CEO of Reporty did not contact me.
Please let me know if you need any additional information.

Have a great day.
Best regards,
Dan

Hi Dan,

As I mentioned earlier in the week, there are number of areas the EU is interested in.
HLS is a key area and not a lot of Israeli companies in this area are applying for the funding.

Small companies (incl start-ups) can receive up to 2.5M Euro to finance

1) the development of their product

2) run pilots, demonstrations etc etc

3) the necessary business development to bring the product to market.

It is a real grant, so no need to pay back the money. Formally financing is at 70% of the costs incurred by the company, in practice it is ~87%.

Here is a link to the specific program:
http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/2570-drs-17-2015.html

Companies like Reporty that was in the news yesterday could be very relevant as "citzen centric" security solutions are hot at the moment also in Europe.
Others technologies e.g. critical infra protection, cyber etc etc are relevant as well.

Thanks!

Martin
